

Alliance for Pediatric Quality

Measurably improving the quality of health care for America's children

Join the Discussion: Improve First Webinar Series

Pediatrix Medical Group Presents...
**Business Case for Quality Improvement
in Neonatal-Perinatal Medicine**

[Register today for the next Improve First webinar!](#)

Improving the quality of care in the NICU has been good for patients and families -- decreased length of stay and improved satisfaction -- but also for physicians, hospitals and the corporation.

Spend 90 minutes with Alan Spitzer, MD, from Pediatrix Medical Group, the nation's largest provider of maternal-fetal, newborn and pediatric subspecialty physician services, to discuss:

- How improving care for our most fragile population improves patient outcomes, physician satisfaction and financial performance
- Pediatrix state-of-the-art clinical data systems and how they support quality improvement
- Benchmarking studies and results for reducing ROP and nosocomial infections
- Evidence-based medication use

Register Now: [March 5, 2009](#)

1 p.m. CT / 2 p.m. ET / 12 p.m. MT / 11 a.m. PT

Presented By:

Alan R. Spitzer, MD
Senior Vice President and Director
The Center for Research and Education
Pediatrix Medical Group

Note: Once you have registered for the webinar, you will receive an Outlook invitation from Improve First with information on how to access the webinar and download the presentation in advance.
